Figure

Include y-axis label

Number figures in the order in which they are discussed, and give description here

Include x-axis label

If necessary, include a legend to help readers understand the charted data

FIGURE 1 Number and Percentage of Cooling Towers From Multifamily Housing Units That Tested Positive for Legionella Over Time in Garland, Texas[a]

Below figure, put abbreviations

Abbreviation: HVAC, heating, ventilating, and air-conditioning.

[a]Between 2005 and 2007, there were 18 cooling towers. The number of cooling towers decreased over time as multifamily housing units replaced aging HVAC systems; 17 cooling towers in 2008, 16 cooling towers in 2009, 15 cooling towers in 2011, and 14 cooling towers in 2012-2015. Since the number of cooling towers in 2010 is unknown, a value of 15.5 was assigned.

If superscripts are used within figure or in figure description, specify what they represent

https://journals.lww.com/jphmp/Fulltext/2017/11000/Implementation_of_a_Legionella_Ordinance_for.10.aspx
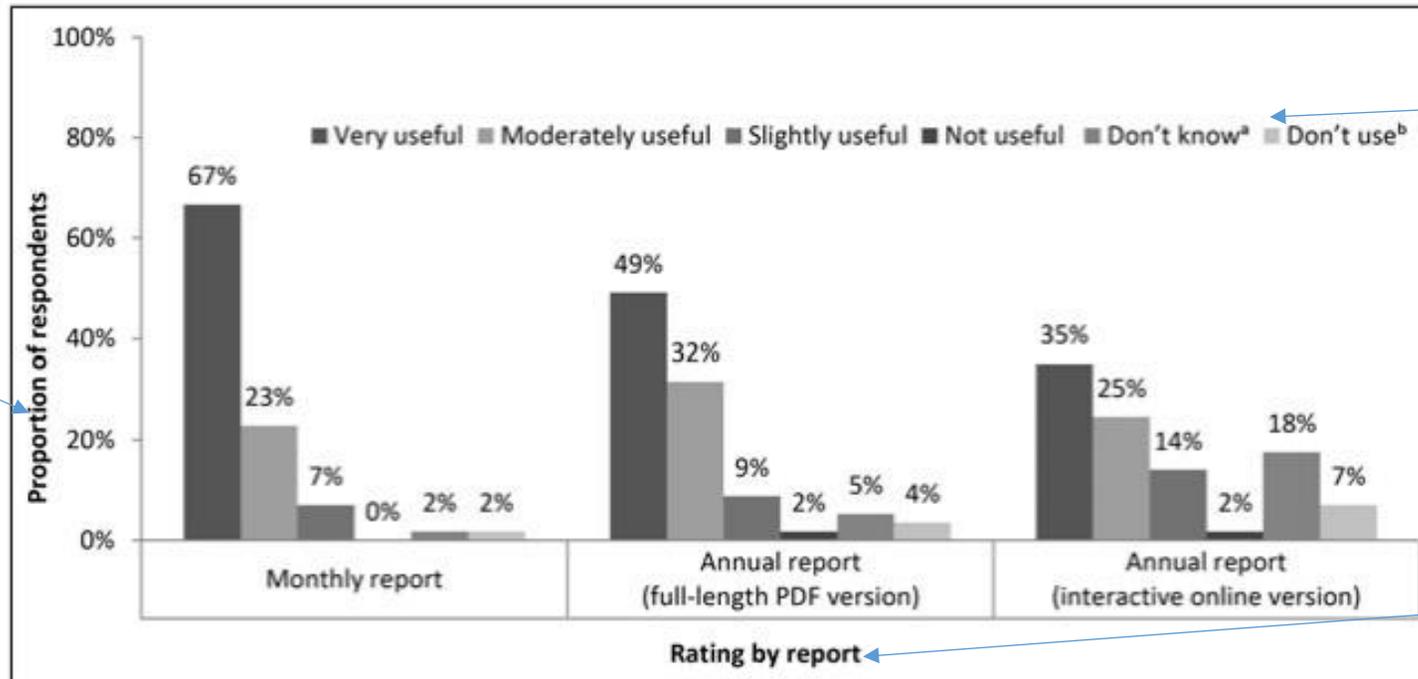

Figure

Figure 1 Usefulness Rating by Surveillance Report
[a]In the survey, "Don't know" was described as: "I haven't used the report yet, but I might use it in the future."
[b]In the survey, "Don't use" was described as: "I don't need to use the report at all."

Callouts:
- If necessary, include a legend to help readers understand the charted data
- Include y-axis label
- Include x-axis label
- If superscripts are used within figure, specify what they represent
- Number figures in the order in which they are discussed, and give description here

Table

Each table should be in a separate document; number tables consecutively

For tables, give description here

TABLE Expanded Partner Services Cohort Determined to Be Truly Out of Care and Successfully Relinked to Care

	Total		Relinked to Care		P
	n	%	n	%a	
Total confirmed out of care	233	100.0	166	71.2	
Gender					.30
Female	89	38.2	67	75.3	
Male	142	60.9	97	68.3	
Transgender	2	0.9	2	100.0	
Age, y					<.001b
20-29	38	16.3	21	55.3	
30-39	50	21.5	31	62.0	
40-49	63	27.0	48	76.2	
50-59	66	28.3	51	77.3	
>60	16	6.9	15	93.8	
Race/ethnicity					<.005
White, non-Hispanic	61	26.2	45	73.8	
Black, non-Hispanic	117	50.2	92	78.6	
Other	21	9.0	10	47.6	
Hispanic	30	12.9	18	60.0	
Unknown	4	1.7	1	25.0	
Risk					.89
MSM	87	37.3	59	67.8	
IDU	28	12.0	21	75.0	
MSM/IDU	4	1.7	3	75.0	
Heterosexualc	86	36.9	61	70.9	
Unknown or missing	28	12.0	22	78.6	

Abbreviations: IDU, intravenous drug user; MSM, men who had sex with men.

[a] Represents row percent.

[b] Test for trend.

[c] Includes females presumed heterosexual contact.

If P≥.01, express P values to 2 digits, regardless of whether it's significant or not.

If P<.01, express it as an actual P value to 3 digits, unless p<.001

Can leave P value to 3 digits if rounding to 2 digits would make it nonsignificant

Below table, put abbreviations

If superscripts are used within table, specify what they represent

Find this table in the open-access research full report at
